

Submit Your Ringtone to BirdChannel

Got a sound clip you think other BirdChannel members might want to put on their phones? Submit it to us!

Send us a ringtone of your bird's voice! We can accept MP3 files with a maximum length of 15 seconds. Please follow our tips/guidelines before recording your ringtone or submitting it to us. Our staff will review your ringtone and post on the site if acceptable within 3 business days.

Tips/Guidelines

Ringtones that contain human voices and/or animals in distress will not be accepted.

If you can only record into .wav format, you can convert the file using mp3 encoding software. Example Software

Ringtone submissions should be free of other noises as much as possible and your bird's voice should be isolated.

Ringtones are best without pauses or breaks. Your ringtone should be producing sound continuously.

When submitting your ringtone, please also include a description. (For example: Lovebird Singing or Scarlett Macaw Squawk)
