

Please Rescue My Bird!

Use a sign to let emergency crews know that pet birds are in the house

By Crystal Apilado

Download and print out sign.

A disaster can strike at any moment, and we may not always be at home to evacuate our pet birds. Use our Pet Bird Disaster Sign to let emergency and volunteer crews know that birds in your home need to be rescued.

Place the sign in a spot that is easily seen by others, like your front screen or front window. You also may want to place a sign near other doors that lead inside your home.

Note: Once the PDF has opened, scroll down to the bottom of the page to view the sign.
